STEPHEN PARKER SINGLETON

sps253@cornell.edu • linkedin.com/in/spsingleton/ • https://github.com/singlesp

Education

June 2020 - April 2023	Computational Biology, Ph.D.	Cornell University
August 2015 - June 2017	Chemistry, M.S.	Cornell University
August 2011-May 2015	Chemistry, B.S.	University of South Carolina

Professional Experience

April 2023 - Present — Postdoctoral Researcher, Advisor: Amy Kuceyeski — Department of Radiology, Weill Cornell Medicine

- Studying the effects of pharmacology, substance use, and trauma on human brain activity/connectivity in the Computational Connectomics Lab.

June 2020 - April 2023 — NSF Graduate Research Fellow, Advisor: Amy Kuceyeski — Department of Computational Biology, Cornell University

- Studying the effects of pharmacology on human brain activity/connectivity in the Computational Connectomics Lab.
- Utilizing advanced techniques in network control theory, statistics, and machine learning to quantify brain dynamics.
- Identifying neural correlates of MDMA-assisted therapy for PTSD in humans using audio script-driven memory recollection during fMRI.
- Coding experience: MATLAB, R, python, bash, git. Experience with preprocessing and analysis of fMRI, dMRI, PET.
- Network (graph) neuroscience, feature extraction, biomarker discovery.

August 2017 - June 2020 — Teacher, High School — Palmetto Scholars Academy, North Charleston, SC

- Designed and implemented a diverse 10th grade chemistry curriculum for intellectually gifted students.
- Instructor of dual-enrollment Chemistry 110/111 lecture and lab course along with an Introduction to Research class to prepare junior students for their senior capstone project.
- Utilized a project-based-learning curriculum for an experimental chemistry elective course.

June 2015 - August 2017 — Graduate Research Assistant, Advisor: Brett P. Fors — Department of Chemistry & Chemical Biology, Cornell University

- Developed novel catalyst systems for controlling polymer topology *in situ*, utilizing visible light as an external stimulus.
- Structure-property relationships of these new materials studied via NMR, rheology, and SAXS.
- Random forest classifier implemented to map structure-property relationships.

August 2013 - May 2015 — Undergraduate Researcher, Advisor: Chuanbing Tang — Department of Chemistry & Biochemistry, University of South Carolina

- Development and classification of cationic, rosin acid-derived, compounds and polymers as novel antimicrobial agents.
- Surface initiated ATRP modification of glass surfaces for medical device and implant applications.
- Novel monomer synthesis and natural product functionalization, purification, and characterization.

May 2013 - August 2014 — Applications/Development Chemist Intern I & II — MeadWestvaco (now Ingevity), North Charleston, SC

- Ladder study performed involving HM-PSA formulation and preparation, physical and rheological testing, followed by multivariate analysis (PCA, PLSA) to create an iterative screening process for new product development and adhesive formulation.
- Explored various synthetic pathways for the development of new products with targeted end-use properties in adhesive systems.

Teaching and Outreach

April 2019 - May 2022 — Advisor, High School Senior Capstone Experience — Palmetto Scholars Academy, North Charleston, SC

- Mentoring high school students interested in scientific research to develop, plan, and perform their thesis research for their Senior Capstone Project.
- Students carry out hands-on research, write a thesis, and defend it against a committee.

August 2017 - May 2018	Head Coach VEX High School Robotics	Palmetto Scholars Academy North Charleston, SC

- Coached 4 high school VEX teams during the 2017-2018 In The Zone challenge.
- Teams earned 2 Excellence Awards, 2 Design Awards, and 1 Tournament Champions award.
- 2 Teams made it to SC State Tournament and 1 team advanced to the US CREATE Open event in Council Bluffs, Iowa.

January 2016 - June 2017	Outreach Coordinator	Fors Research Group Cornell University
August 2015 - June 2017	Families Learning Science Together Workshop Volunteer	Cornell Center for Materials Research Cornell University
August 2015 - May 2016	Graduate Teaching Assistant Organic Chemistry Laboratory	Department of Chemistry & Chemical Biology Cornell University
October - November 2015	Family Science Nights Module Instrutor	Sciencenter Museum Ithaca, NY
January 2013 - May 2013	Teaching Assistant General Chemistry Laboratory	Department of Chemistry & Biochemistry University of South Carolina

Volunteer Experience

April 2021 - Present	Night Attendant	Zen Therapeutic Solutions Charleston, SC

- Phase 1, 2, and 3: MDMA-assisted psychotherapy research with MAPS/MPBC.
- Overnight shadow for study participants following their 8 hr long therapeutic sessions with MDMA.

August 2017 - Present	President Homeowner's Association	Jericho on the Ashley North Charleston, SC
October 2016	Service Volunteer	Montgomery Park Playground Build Dryden, NY
September 2013 - June 2015	President and Founder	Gates at Williams-Brice Recycling Committee Columbia, SC
Summers of 2013-2014	Service Volunteer	The Hope Lodge, American Cancer Society Charleston, SC

Honors and Awards

Fulbright Research Grant Alternate — 2022 (*Neural and subjective effects of mescaline in naturalistic settings*)
National Science Foundation Graduate Research Fellow — 2016 - 2017; 2020 - 2022
Graduation with Leadership Distinction in Research — May, 2015
University of South Carolina Outstanding Senior Award — April, 2015
Who's Who Among American Colleges and Universities Award — April, 2015
Hypercube Scholar Award — April, 2015
Hiram S. and Lawanda Allen Scholarship for Excellence in Chemistry — April, 2014
Magellan Scholarship for Undergraduate Research — April, 2014
Outstanding Poster Presentation, Presented at the South Carolina ACS Awards Day — April, 2014
South Carolina Palmetto Fellows Scholar — August, 2011 - May, 2015
USC Dean's Scholar — August, 2011 - May, 2015
