

# STEPHEN PARKER SINGLETON

[sps253@cornell.edu](mailto:sps253@cornell.edu) • [linkedin.com/in/spsingleton/](https://www.linkedin.com/in/spsingleton/) • <https://github.com/singlesp>

## Education

---

June 2020 - April 2023	Computational Biology, Ph.D.	Cornell University
August 2015 - June 2017	Chemistry, M.S.	Cornell University
August 2011-May 2015	Chemistry, B.S.	University of South Carolina

## Professional Experience

---

April 2023 - Present	Postdoctoral Researcher Advisor: Amy Kuceyeski	Department of Radiology Weill Cornell Medicine
----------------------	---	---

- Studying the effects of pharmacology, substance use, and trauma on human brain activity/connectivity in the Computational Connectomics Lab.
- Mentor undergraduate and graduate students on their rotation/thesis projects.

June 2020 - April 2023	NSF Graduate Research Fellow Advisor: Amy Kuceyeski	Department of Computational Biology Cornell University
------------------------	--	---

- Studying the effects of pharmacology on human brain activity/connectivity in the Computational Connectomics Lab.
- Utilizing advanced techniques in network control theory, statistics, and machine learning to quantify brain dynamics.
- Identifying neural correlates of MDMA-assisted therapy for PTSD in humans using audio script-driven memory recollection during fMRI.
- Coding experience: MATLAB, R, python, bash, git. Experience with preprocessing and analysis of fMRI, dMRI, PET.
- Network (graph) neuroscience, feature extraction, biomarker discovery.

August 2017 - June 2020	Teacher High School	Palmetto Scholars Academy North Charleston, SC
-------------------------	------------------------	---

- Designed and implemented a diverse 10th grade chemistry curriculum for intellectually gifted students.
- Instructor of dual-enrollment Chemistry 110/111 lecture and lab course along with an Introduction to Research class to prepare junior students for their senior capstone project.
- Utilized a project-based-learning curriculum for an experimental chemistry elective course.

June 2015 - August 2017	Graduate Research Assistant Advisor: Brett P. Fors	Department of Chemistry & Chemical Biology Cornell University
-------------------------	---	--

- Developed novel catalyst systems for controlling polymer topology *in situ*, utilizing visible light as an external stimulus.
- Structure-property relationships of these new materials studied via NMR, rheology, and SAXS.
- Random forest classifier implemented to map structure-property relationships.

August 2013 - May 2015	Undergraduate Researcher Advisor: Chuanbing Tang	Department of Chemistry & Biochemistry University of South Carolina
------------------------	---	--

- Development and classification of cationic, rosin acid-derived, compounds and polymers as novel antimicrobial agents.
- Surface initiated ATRP modification of glass surfaces for medical device and implant applications.
- Novel monomer synthesis and natural product functionalization, purification, and characterization.

May 2013 - August 2014	Applications/Development Chemist Intern I & II	MeadWestvaco (now Ingevity) North Charleston, SC
------------------------	---	---

- Ladder study performed involving HM-PSA formulation and preparation, physical and rheological testing, followed by multivariate analysis (PCA, PLSA) to create an iterative screening process for new product development and adhesive formulation.
- Explored various synthetic pathways for the development of new products with targeted end-use properties in adhesive systems.

## Teaching and Outreach

---

April 2019 - May 2022	Advisor High School Senior Capstone Experience	Palmetto Scholars Academy North Charleston, SC
-----------------------	---	---

- Mentoring high school students interested in scientific research to develop, plan, and perform their thesis research for their Senior Capstone Project.
- Students carry out hands-on research, write a thesis, and defend it against a committee.

August 2017 - May 2018

Head Coach  
VEX High School RoboticsPalmetto Scholars Academy  
North Charleston, SC

- Coached 4 high school VEX teams during the 2017-2018 In The Zone challenge.
- Teams earned 2 Excellence Awards, 2 Design Awards, and 1 Tournament Champions award.
- 2 Teams made it to SC State Tournament and 1 team advanced to the US CREATE Open event in Council Bluffs, Iowa.

January 2016 - June 2017

Outreach Coordinator

Fors Research Group  
Cornell University

August 2015 - June 2017

Families Learning Science Together  
Workshop VolunteerCornell Center for Materials Research  
Cornell University

August 2015 - May 2016

Graduate Teaching Assistant  
Organic Chemistry LaboratoryDepartment of Chemistry & Chemical Biology  
Cornell University

October - November 2015

Family Science Nights  
Module InstructorSciencenter Museum  
Ithaca, NY

January 2013 - May 2013

Teaching Assistant  
General Chemistry LaboratoryDepartment of Chemistry & Biochemistry  
University of South Carolina

## Volunteer Experience

April 2021 - Present

Night Attendant

Zen Therapeutic Solutions  
Charleston, SC

- Phase 1, 2, and 3: MDMA-assisted psychotherapy research with MAPS/MPBC.
- Overnight shadow for study participants following their 8 hr long therapeutic sessions with MDMA.

August 2017 - Present

President  
Homeowner's AssociationJericho on the Ashley  
North Charleston, SC

October 2016

Service Volunteer

Montgomery Park Playground Build  
Dryden, NY

September 2013 - June 2015

President and Founder

Gates at Williams-Brice Recycling Committee  
Columbia, SC

Summers of 2013-2014

Service Volunteer

The Hope Lodge, American Cancer Society  
Charleston, SC

## Honors and Awards

**Fulbright Research Grant Alternate** — 2022 (*Neural and subjective effects of mescaline in naturalistic settings*)**National Science Foundation Graduate Research Fellow** — 2016 - 2017; 2020 - 2022*Graduation with Leadership Distinction in Research* — May, 2015*University of South Carolina Outstanding Senior Award* — April, 2015*Who's Who Among American Colleges and Universities Award* — April, 2015*Hypercube Scholar Award* — April, 2015**Hiram S. and Lawanda Allen Scholarship for Excellence in Chemistry** — April, 2014*Magellan Scholarship for Undergraduate Research* — April, 2014*Outstanding Poster Presentation, Presented at the South Carolina ACS Awards Day* — April, 2014*South Carolina Palmetto Fellows Scholar* — August, 2011 - May, 2015*USC Dean's Scholar* — August, 2011 - May, 2015

## Presentations

---

### Symposia and workshops:

- “*The flowing brain on psychedelics*”, Oxford Psychedelic Society, online, **2021**. Recording: <https://youtu.be/wwovwxFuWUE>
- “*Chemistry and Music Workshop*,” American Chemical Society National Meeting, Orlando, FL, **2019**.

### Oral presentations:

- “*This is your brain on drugs: A multimodal neuroimaging and computational investigation into the effects of psychedelics and MDMA on human brain dynamics*,” Dissertation Defense Seminar, Department of Computational Biology, Cornell University, **2023**. Recording: <https://youtu.be/yE6NuOi3BAI>
- “*Harnessing neural and cognitive plasticity with psychedelics*,” Cleveland Clinic Psychedelic Science Group, online, **2022**.
- “*Altered neural activity patterns following MDMA-assisted therapy for PTSD: an fMRI pilot study*,” Interdisciplinary Conference on Psychedelic Research, Haarlem, Netherlands, **2022**. Recording: <https://youtu.be/iV0CcJzOk6E>
- “*A flattened energy landscape under LSD and psilocybin: how psychedelics advance our ability to model brain dynamics*,” Psychedemia: Neuroscience Panel, Columbus, OH, **2022**. Recording: <https://youtu.be/khaVhAL9NFQ>
- “*Evidence for a flattened energy landscape under LSD and Psilocybin*,” Canadian Computational Neuroscience Spotlight, online, **2022**.
- “*Neurobiology of MDMA-assisted therapy for PTSD*,” Cornell Computational Biology Student Seminar Series, Ithaca, NY, **2022**.
- “*LSD flattens the brain’s energy landscape: insights from receptor-informed network control theory*,” Cornell Computational Biology Student Seminar Series, Ithaca, NY, **2021**.
- “*Antibacterial and Biofilm-Disrupting Coating Sustainable Materials*,” University of South Carolina Discovery Day for Undergraduate Researchers, Columbia, SC, **2015**.
- “*Antibacterial and Biofilm-Disrupting Coating Sustainable Materials*,” Southeastern Undergraduate Research Conference, Montgomery, AL, **2015**.

### Poster presentations:

- “*LSD and psilocybin flatten the brain’s energy landscape: insights from receptor-informed network control theory*,” Organization for Human Brain Mapping, Glasgow, U.K., **2022**.
- “*Evidence for altered neural activity patterns after MDMA-assisted therapy in adults with chronic and severe post-traumatic stress disorder: a pilot study*,” Organization for Human Brain Mapping, Glasgow, U.K., **2022**.
- “*LSD and psilocybin flatten the brain’s energy landscape: insights from receptor-informed network control theory*,” From Research to Reality: Global Summit on Psychedelic Therapies and Medicine, Toronto, CA, **2022**.
- “*Evidence for altered neural activity patterns after MDMA-assisted therapy in adults with chronic and severe post-traumatic stress disorder: a pilot study*,” From Research to Reality: Global Summit on Psychedelic Therapies and Medicine, Toronto, CA, **2022**.
- “*LSD flattens the brain’s energy landscape: insights from receptor-informed network control theory*,” Organization for Human Brain Mapping, online, **2021**.
- “*Sustainable Antimicrobial Coatings from Resin Acids*,” American Chemical Society Awards Day, Orangeburg, SC, **2014**.
